ASKING FOR FURNITURE BIDS. A circular letter was sent out from the office of the chief clerk of the Treasury department today asking for bids for supplying furniture for the new public buildings at Fremont, Neb., and at Cedar Rapids, Ia. This action was taken as a result of information received at the department that the buildings were fast nearing completion and that the furniture would be needed sooner than it would be had by making the regular advertisement calling for proposals. This letter was sent to prominent furniture makers in Des Motnes, Cincinnati, Chicago and In-dianapolis, and several eastern cit'es. The bids are expected to be in by Friday, November 16, when they will be opened. The list of articles of furniture to be contracted for comprises tables, desks, cabinets, book racks and stands. Bids for furnishing gas fixtures for the building at Frement will be opened on the 10th of the month.

GERMANY IS BACKING DOWN.

Willing to Consider the Matter of Admitting American Best.

WASHINGTON, Nov. 7.—The Associated press announcement that the German authorities may conclude to determine the possibilities of the introduction of Texas fever into the empire from expert opinions of American veterinarians, which are now being translated, was received with great interest by Secretary Morton, whose advocacy of retaliation by requiring a strict inspection of German wines and liquors has been told in the dispatches. The secretary has investigated the question and finds that authority to entirely exclude German products in retaliation for discrimination against American goods is vested in the president by existing laws, which have been heretofore overlooked in the discussion of the question. Secretary Morton had a conference with the president and laid the law before him. It is in the United States Statute at Lange, Vol. 5, Fifty first congress, page 44, chapter 839: "An act providing for an inspection of meals for exportation and prohibiting the importation of adulterated articles of food or drink and authorizing the president to make a proclamation in certain cases and for other purposes." interest by Secretary Morton, whose ad-

Section 4, to which the secretary called the particular attention of both the United States authorities and these of the German empire, reads: "That whenever the president is satisfied there is good reason to believe any importation is being made or is about to be made into the United States from any country of any articles used for human food or drink that is adulterated, he (the president) may issue his proclamation prohibiting the importation of such articles from such country for such period of time as he may think necessary."

Section 5 says: "When the president shall be satisfied that unjust discriminations are made by or under the authority of any such government against the importation into and sale of any product of the United States, as he shall deem proper, shall be excluded from importation into the United States, and in such case he (the president) shall make proclamation of his direction in the premises and therein name the time when such direction against importation shall take effect, and after such date the importation of the articles named in such proclamation of the versident may at any time revoke, modify, jerminate or renew any such direction as

Passenger and Fast Cattle Trains Collide with Fatal Results. PITTSBURG, Nov. 7.—Train No. 5, Balti-nore & Ohlo limited, coming west, ran into the first section of No. 64, a fast cattle train, at Rosensteel siding, two miles east of Rockwood, at 5:40 this evening. Six men were killed in the collision and several others badly hurt. The killed are: Henry Bush, engineer No. 5; Simon McCarty, fire-man No. 5; Browning, engineer, No. 64; Manning, fireman, No. 64; two unknown men, either mail clerks or express messen-

gers.

The injured are: Pierce; De Grange;

The railroad officials say no passengers were hurt. The limited should have arrived here at 8:45 and leave for Chicago at 8:55. The cattle train carries cattle from Chicago to Baltimore for shipment to Europe. Both trains were going at the rate of forty miles an hour and came together while rounding a curve. Neither crew had time to jump or sound a warning. The meeting place for the trains was Pine Grove, four or five miles east of the place of the collision, where the passenger train should have taken the siding for the freight. For some reason the passenger train passed the siding. The mail car was reduced to kindling wood. Only the heavy vestibules of the passenger cars saved them from a similar fate. Fully a dozen cattle cars were piled up on the track, killing and maiming many of the dumb brutes. De Grange, Pierce and Lippincott were jammed between the cars and the two unknown clerks were found dead under the debris. Conductor Ward was not hurt, as was at first reported. Bush was not hurt, as was at first reported. Bush was the oidest trains were at once sent to the relief.

Chinese Fleet Reported to Be Short on Ammunition for Their Heavy Guns-Fate of the Two Captured Students Definitely Settled.

YOKOHAMA, Oct. 24 .- (Per steamer Belgic, via San Francisco, Nov. 7.)-Since the sailing of the last American steamer the war has been devoid of exciting incident in Japan. Public attention has been absorbed in the proceedings of the extra session of Parliament, which closed two days ago after passing legislation sanctioning the war, exhorting the government to spare no effort for the realization of the nation's hopes, and pledging the cordial support of the army and navy. The Nichini, newspaper, semiofficial, announces on authority that the emperor has sanctioned a war expenditure local applications can do no permanent good. of 44,292,497 yen for the army and 15,764,467. The common sense method of treatment is yen for the navy. The government has made of 44,292,497 yen for the army and 15,704,467 use of 23,388,836 yen, leaving nearly 37,000,000 yen yet available. English newspapers in Japan have published a statement that the Japanese government has tendered an apology to Great Britain on account of the Kow Shing affair, and promised to pay an inemnity of \$75,000.

The correspondent of the Associated press is authorized to give an absolute denial to the story. Most of the Chinese prisoners captured at Phyong-Yang have been brought to Japan and distributed in various parts of the country. Most of the prisoners were conducted to the Red Cross society hos-pitals. They had expected to be tortured and butchered. Instead, they were thor-oughly washed, greatly to the astonishment of the majority, given clean apparel and supof the majority, given clean apparel and sup-plied with wholesome food, on receiving which they shed tears profusely. After three days of good treatment in the hospitals many of them could scarcely be recognized as the same beings, and the majority of them are now anxious to be allowed to remain in Japan. Reports from China state that the remnants of Admiral Ting's fleet have been patched up and are nearly ready to try their fate again with the sea, but ominous messages are going to and from Port Arthur to the effect that if they venture forth it must be without proper provision of shot and shell for the big guns. So great has been the rascallty of high officials that the vast quanities of ammunition which were supposed to be stored at the naval stations have about

Definite news is at last received concerning the two Japanese students who were ar-rested as spies in Shanghai and surrendered to the Chinese by the consul general of the United States in obedience to instructions from Secretary Gresham. On October 8 from Secretary Gresham. On October 8 they were decapitated at Nankin by order of the viceroy in the presence of all the ligh officials of that city and of a mob, which kept shricking "Kill the foreign devils" from the moment the condemned men appeared upon the execution ground until their heads fell. That the native authorities of Shanghai are disposed to repeat these proceedings as often as they can is shown in attempts to get possession of Japanese travelers on the same pretext. Toward the end of last month they sent a body of guards on board an English ship and without a warrant seized a passenger on his way home to Yokohama, alleging that they acted with the knowledge and consent of the British consul general—an assertion which has not been denied, and which gains some color from the indifference of the British local offi-cials to the feet that two other steamers under their flag have been unlawfully boarded by Chinese soldiers and their Japanese passengers brutally maltreated. These outrages occurred many weeks ago, and so far as is known no reparation has been ex-Opium habit and alcoholism treated. Years of experience. H. W. Hyde, M. REMAINS LYING IN STATE.

Escorted by Faithful Cossacks They Are Taken to the Church. LIVADIA, Nov. 7 .- The massive gilded coffin containing the remains of Czar Alexander III was removed to the Byzantine church yesterday. There the body of the late czar will lie in state until temorrow. At 6 o'clock in the evening the Cossacks, who had been acting as the imperial body guard, attired in their long tunics with gold facings, took up their positions along the cypres-strewn route from the palace, all carrying, I ghted torches, making a weird scene. The procession of white-robed clergy then emerged from the church and formed in line across the road. The bells began to ring soon after-ward. The sound of children singing hymns was heard in the distance. Then through was heard in the distance. Then through the darkness the glare of the torches carried

by the guards marching on either side of the coffin could be perceived. A sharp word of command, "present arms," broke the solemn silence, and amid the muffled rolling of many drums, the procession entered the church path, headed by sailors carrying lanterns and banners and followed by the choir of children, dressed in white surplices. They were followed by the clergy and then came the coffin, surmounted by the imperial crown and borne by Cossacks. Behind the crown and borne by Cossacks. Behind the coffin were the czar and czarina, who was deeply veiled; the Grand Dukes Sergius and Vladimir, the queen of Greece and Princess Alix of Hesse, the princess of Wales and the duchess of Saxe-Coburg Gotha, the children belonging to the imperial and royal families and the high court and military officers. The Cossacks placed the coffin in front of the church as the military band played "How Great and Glorious is God in Zion," all present standing with uncovered heads. After the hymn the coffin was borne into the church and laid on the bier. When the mourners were arranged around the bier the mourners were arranged around the bier the bishop of Simferopol celebrated mass, after which the party left the church and returned to the palace in carriages.

O'COATS.

More from force of habit than from any other cause, we speak of overcoats on a chilly and drizzling day. However, it might prove interesting to you. There are more buyers this year in search of bargains than ever known from the days of the Pilgrims down.

The Nebraska approves of this. Buy cheaply but be sure it is cheap. To know where to buy is an important item. Scan all newspapers, clip all miraculous incidents of purchasers or other wonderful tales of daring advantages required to secure a dozen or so overcoats, and of some hairbreadth escapes some experienced while making a daring plunge of an offer for a whole manufacturer—some 17 overcoats in all. —Go by all means and investigate-examine prices and quality-a most eloquent salesman-will, no doubt, help you to get the best of the bargain.

When you are through, give us your time for a minute; come in to the ever humble Nebraska. We hav'nt any moquette carpets, plate mirrors, neither eloquent and persuading salesmen, but honest overcoats to be sold honestly, and loads of 'em to select from. We don't handle any socalled half price goods, but we can furnish you an overcoat for TWO SEVENTY-FIVE of good chinchilla, Italian lined, warm and durable, that'll cost you \$500 anywhere. A long, deep collar Melton Ulster, wool lined in two shades at FOUR DOLLARS for which other stores charge at least \$7.00.

Here are other coats and ulsters finer, finer still and the finest to be had. Can't possibly dream of a style or sort you can't get here at a good healthy saving on each one. From \$2.00 up to \$10,00 is what you save here. If we misrepresent this, come and get your money backyou're welcome.
